COMMERCIAL SKIN CARE PRIVATE BRANDING

Private Label and Contract Manufacturing

KUTOL

Hand Care Specialists

KUTOL
Hand Care Specialists

The burden of keeping up on the latest rules and regulations is removed when you private label or contract manufacture your skin care line with Kutol – leaving you to focus on other areas of your business.

Your Private Brand Success

Better compete in the away-from-home market, build brand recognition, expand sales opportunities and enhance margins with a private brand skin care line. Whether you are interested in small runs, multiple pallets or tankers full of hand care products, Kutol will guide the process with efficiency and thoroughness.

With our knowledge and experience, Kutol ensures your private brand skin care portfolio will be high-quality, successful and profitable. We will partner with you to develop tailored skin care solutions that align with your private brand goals and exceed the expectations of your customers, while meeting FDA regulations and following current Good Manufacturing Practices (cGMP).

Regulatory Expertise and Quality Excellence

By teaching and following standardized work processes developed under Current Good Manufacturing Practices (cGMP), we ensure regulatory requirements are met, delivering the highest value to our customers.

Quality measures Kutol takes to ensure the best in skin care contract manufacturing:

- Proactively audited by cGMP third party reviewers every year
- Validated testing methods
- Qualified manufacturing and testing equipment
- Process and packaging validations
- Microbiology (micro) testing

Kutol is proud to offer our private brand customers an unrivaled level of:

Quality
On-site quality control and assurance, laboratory services and chemistry team with more than 120 years' combined experience

Agility
Batch capabilities of 200 to 5,000 gallons, packaging configurations from 1 ounce to full tanker, product formulations from water thin to paste thick

Compliance
FDA registered facility in compliance with cGMP and Health Canada providing process, cleaning and packaging validations, stability studies and micro testing

Knowledge
110-year company history with 200+ private brand partners

Environmental Stewardship
Recyclable refill bags are made with 50% less plastic and formula certifications include Green Seal®, Ecologo® and USDA BioPreferred®

Full Service
All aspects of our business are under one roof so we can easily monitor your private brand products from start to finish – ensuring the ultimate in quality control and production efficiency
