Tandem

Premium Textured Hand Roll Towel

Elevated Performance. Smart Value. Built for Today's Market.

T117 Cascades PRO Signature® Premium Textured Hand Roll delivers high level towel performance designed for today's value-driven market. Made with 100% virgin fibers and a distinctive textured sheet, it offers the softness, strength, and absorbency users expect — while optimizing efficiency with its 1,000-foot roll. The result is a smarter premium solution that balances performance, value, and efficiency.

100%

Virgin fibers

1,000-foot high capacity roll

1-ply

Soft, absorbent and strong

Distinctive Texture

Compatible with C340 & C350

FSC® certified

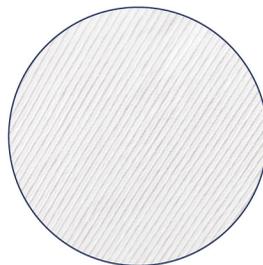

CMA certified

Premium you can feel. Performance you can trust.

T117 is engineered to deliver a superior hand-drying experience without compromise.

The textured sheet design improves sheet feel, while virgin fibers provide the strength expected in premium environments — from office and healthcare to foodservice facilities.

- **Enhanced softness and premium feel**
- **Distinctive textured sheet**
- **Consistently strong and absorbent**

Cascades PRO

All clean. All good.

Cascades PRO

Tandem

Reliability you can count on. Value you can measure.

Premium quality. Smart efficiency.

In today's market, value isn't about choosing the lowest price — it's about maximizing performance per roll with the best quality possible.

High capacity roll

means less changeouts and more hand dries per case

Effective absorbency

helps reduce sheets per use

Consistent strength

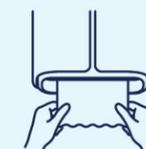

minimizes waste and tabbing

Strong by design. Consistent every time.

T117 bridges the gap between premium performance and real-world value — making it the right choice for customers who want quality that works harder in today's market.

Compatible Cascades PRO® Dispensers

**C340
Mechanical No-Touch
Dispenser**

**C350
Electronic No-Touch
Dispenser**

Premium quality that aligns with your sustainability goals.

CMA and FSC® certified

Manufactured in North America

Supports responsible sourcing

CMA-certified products are compostable in industrial facilities. They meet the certification's acceptability standards for product decomposition in industrial composting facilities.

FSC® certification guarantees that the virgin fibers used in our products come from forests managed according to strict rules. It is the most widely recognized, notably for its rigor and the inclusion of social criteria in land management. FSC® also enables us to meet our customers' objectives in terms of responsible sourcing of forest resources.
