

DURO[®]

FULL LINE PRODUCT CATALOG

■ Duro® brand profile

■ WE KNOW PAPER BAGS

Duro is one of the leading manufacturers of paper bags and sacks in North America.

As a well-known innovator, we are a trusted source for grocery, retail, pharmacy, foodservice and other industries.

Our line of products includes specialty bags for direct-food contact, bags with convenient handles, compostable bags and bags made with recycled content.

We are the preeminent manufacturer of paper bags because we offer creative solutions that you can depend on from start to finish—from innovating ideas, designing the final product and producing quality products. When it comes to paper bags, we've got you covered.

■ SUSTAINABILITY VISION

The Novolex vision for sustainability is to innovate more sustainable choices for our customers, operate responsibly and invest in our people and communities. We bring this vision to life every day through our ongoing focus on efficiency in our operations, as well as through partnerships with customers, suppliers, communities and others in the industry to develop solutions that reduce the impact our products can have on the environment.

Sustainability partnerships and certifications

The mark of responsible forestry

Forest Stewardship Council®

The FSC® promotes environmentally appropriate, socially beneficial, and economically viable management of the world's forests. The unique role of the FSC is to bring together people, organizations and businesses to develop consensus-based solutions that promote responsible stewardship of the world's forests. Novolex uses the FSC Trademark License FSC®-C010800 for certified chain of custody products made at all Duro plants.

Sustainable Forestry Initiative

SFI Inc. promotes sustainable forest management in North America and supporting responsible procurement globally. SFI Inc. directs all elements of the SFI program including the SFI forest management, fiber sourcing, and chain-of-custody standards, labeling and marketing. SFI certified products provide assurance that the paper used in these products represent a sound environmental choice with raw materials from certified forest content or certified sourcing. Novolex products produced at Duro Bag, Bagcraft, Deluxe and Burrows Packaging are eligible for SFI Certified Sourcing or SFI Chain of Custody logo use. Novolex uses SFI Trademark License Code 01567.

Biodegradable Products Institute

BPI is North America's leading certifier of compostable products and packaging. Their certification program ensures that products and packaging displaying the BPI logo have been independently tested and verified according to scientifically based standards—ASTM D6400 or D6868 standards—for Novolex products. The BPI logo also helps industrial composters know that our products will break down as expected and contribute to healthy soil amendment.

Compost Manufacturing Alliance™

CMA is a global leader in providing industrial composting facilities an acceptance standard for compostable products. They perform field disintegration testing through several prominent processing methods to ensure products sent to industrial compost facilities adequately break down within the production cycle. CMA connects supply chain leaders with top compost manufacturing facilities nationwide to ensure mutual success as co-creators of compost and compostables.

American Society For Testing And Materials (ASTM)

This specification establishes the requirements for labeling of materials and products (including packaging), wherein a biodegradable plastic film or coating is attached (either through lamination or extrusion directly onto the paper) to compostable substrates and the entire product or package is designed to be composted in municipal and industrial aerobic composting facilities. In order to compost satisfactorily, the product must demonstrate each of the three characteristics as follows: (1) proper disintegration during composting; (2) adequate level of inherent biodegradation; and (3) no adverse impacts on the ability of composts to support plant growth.

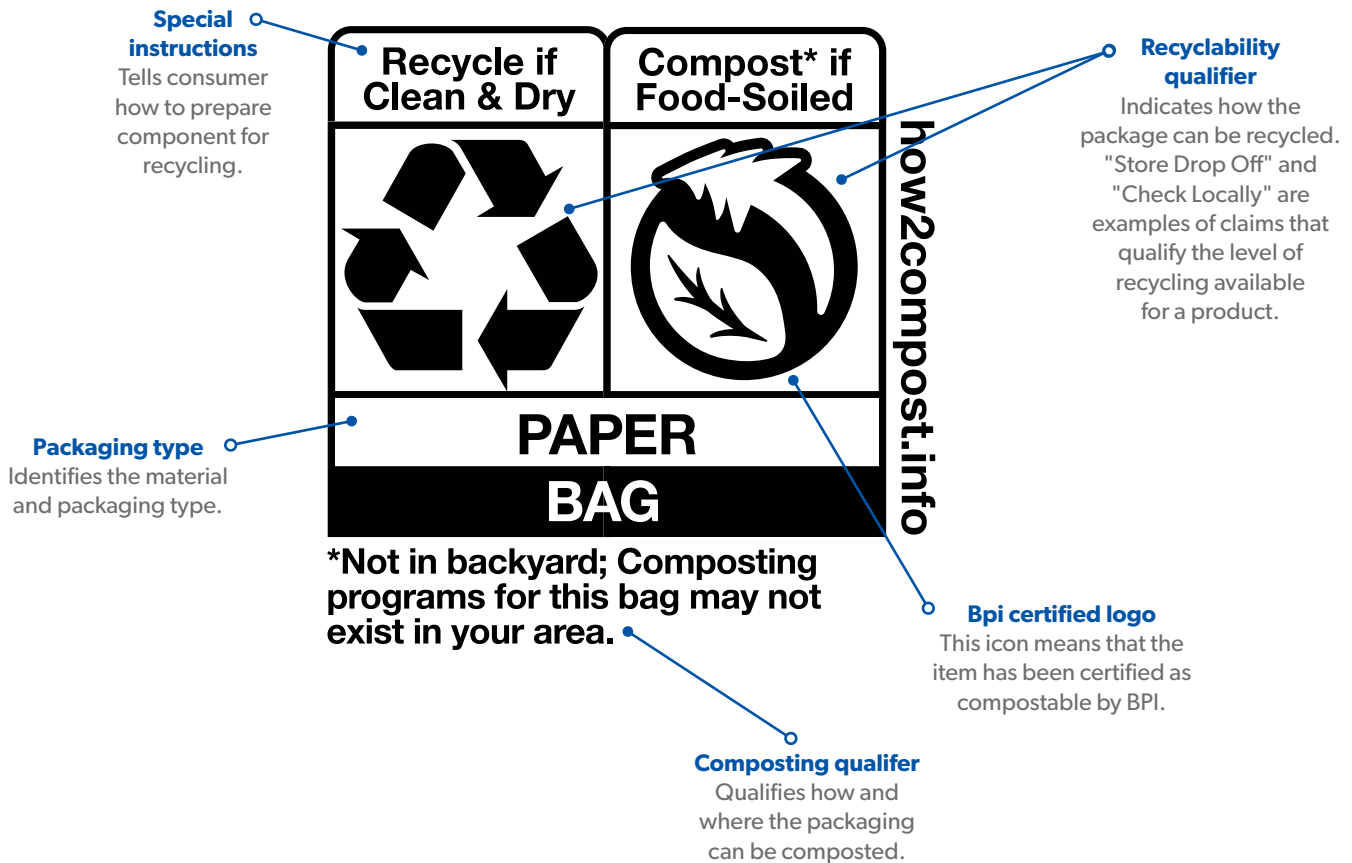

How2Recycle® and consumer education

As part of our commitment to consumer education, Novolex uses the How2Recycle® and How2Compost™ labels on stock products and works with customers to encourage their use on branded items.

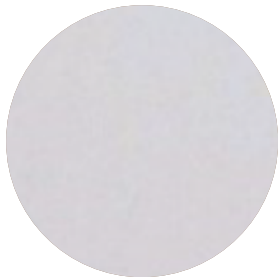

How2Recycle® is a standardized labeling system that clearly communicates recycling instructions to the public. When applicable, it includes instructions on how to properly clean a product before recycling.

How2Compost™ labels inform consumers if a product is compostable in commercial composting facilities. The label is available to use on packages that have gone through the Biodegradable Product Institutes (BPI) certification process. BPI certification is open to products that meets the requirements in ASTM D6400 or D6868 based on testing in a BPI-approved laboratory.

■ Paper types

Duro provides a range of paper types in our stock product line including Dubl Life®. Dubl Life products are made from a minimum of 60% post-consumer recycled paper. The Dubl Life brand drives awareness of the benefits of recycling and composting while promoting the use of packaging solutions with post-consumer material content.

Paper type	Performance features
100% recycled kraft	<ul style="list-style-type: none"> • 100% recycled content • Minimum of 60% post-consumer • FSC® certified • Ideal for printing solid and design graphics
60/40 natural kraft	<ul style="list-style-type: none"> • 60% virgin fiber • 40% recycled fiber • SFI certified • Durable • Natural look
Virgin natural kraft	<ul style="list-style-type: none"> • SFI certified • Durable • Natural look
Wet strength	<ul style="list-style-type: none"> • Durable and moisture resistant • Wet strength additive • SFI certified • Natural Look
Virgin white	<ul style="list-style-type: none"> • Smoother printing surface than kraft • SFI certified • Durable • Premium look

■ Printing and graphic options

With our custom print options, you can design a bag to promote your brand, store or special promotion.

Graphics	Key features
Tail-print:	<ul style="list-style-type: none">• In-line roll-to-bag printing• Most economical way to get branded bags• Line art/moderate detail• Loose to moderate registration• Up to 4 colors
Pre-print:	<ul style="list-style-type: none">• Off-line roll-to-roll printing• High registration• Fine detail, screens, half tones• Special coating/varnishes, including UV• Up to 8 colors

V.I.P. Handle™ bags

PERFORMANCE FEATURES

- Made with Variable Inside Patch (V.I.P.) technology for extra security compared to standard handled bags.
- Handles secured on the inside of the bag allows for more printing space and branding on the outside of the bag.
- Sack made with 100% recycled paper.
- Paper options for the bag, handle and inside patch are available and can be customized to meet your performance and pricing requirements.
- Available with premium, semi-extensible paper handle with high tensile energy absorption for heavy loads carried long distances.
