

FOODSERVICE PPE

EMPRESS™

Head to waist protection made easy.

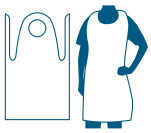

Ensure the highest standards of safety, cleanliness, and compliance across your kitchen and food prep environments with our comprehensive foodservice personal protective equipment (PPE) lineup. Designed to protect both your staff and your culinary creations, this essential trio—featuring Bouffant Caps, Beard Covers, and Polyethylene Aprons—delivers total cross-contamination prevention without sacrificing shift-long comfort.

- **Bouffant Caps**: Engineered for complete hair coverage, these caps feature a snug yet flexible elastic fit that keeps stray hairs out of the face and strictly away from food preparation surfaces.

- **Beard Covers:** Specifically tailored for professional food environments, these beard covers provide a soft, comfortable barrier that prevents stray beard hairs from contaminating food while remaining easy to wear during long, demanding shifts.

- **Aprons**: Crafted from lightweight polyethylene plastic, these aprons offer a flexible and breathable material structure that allows full freedom of movement while effectively safeguarding clothing against spills, splashes, and fluid stains.
