

DEGREASER OPPORTUNITIES IN EDUCATION

CLR PRO MAX® INDUSTRIAL DEGREASER

Effectively penetrates and
dissolves heavy grease,
oil, and grime.

Available in 32oz, 1, 5, 55, and 275 Gallons

CLASSROOMS

- ❑ Science laboratory cleaning - removes chemical residues and oils from lab bench surfaces and equipment exteriors
- ❑ Vocational shop equipment - cleans automotive, woodworking, and technical equipment used in CTE programs
- ❑ HVAC vent and unit cleaning - removes oily buildup in classroom climate systems
- ❑ Kitchen classroom equipment - addresses cooking oils and food residues in culinary arts and home economics spaces
- ❑ Custodial floor maintenance - removes tracked-in oils and environmental contaminants from high-traffic areas
- ❑ Window sill and frame cleaning - eliminates environmental buildup and tracked contaminants

DORMITORIES

- ❑ Residential kitchen facilities - tackles cooking grease buildup in dorm kitchens and common areas
- ❑ Laundry room equipment maintenance - removes fabric softener buildup, oils, and soap residues from washers and dryers
- ❑ Common area floor cleaning - eliminates food spills, tracked oils, and environmental contaminants
- ❑ Vending machine areas - addresses spilled beverages and food residues around high-traffic locations
- ❑ Trash room and chute cleaning - removes sticky residues and grease buildup from waste collection areas
- ❑ Student lounge equipment - cleans microwaves, refrigerator exteriors, and small appliance surfaces
- ❑ HVAC unit maintenance - removes oily buildup from residential heating and cooling systems

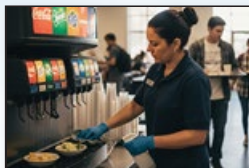

DEGREASING OPPORTUNITIES IN EDUCATION

GROUNDS DEPARTMENTS

- ❑ Maintenance vehicle cleaning - removes oils from mowers, tractors, utility vehicles, and groundskeeping equipment
- ❑ Equipment shop floors - tackles hydraulic fluid spills, equipment oils, and automotive fluids
- ❑ Parts washer solution - cleans landscaping and maintenance equipment components
- ❑ Tool and equipment storage - removes oil buildup from power tools and mechanical equipment
- ❑ Athletic field maintenance equipment - cleans mowing equipment, aerators, and turf maintenance machinery
- ❑ Snow removal equipment - addresses hydraulic fluids and road salt residues on plows and blowers
- ❑ Workshop maintenance - cleans workbenches, storage areas, and repair equipment
- ❑ Parking lot cleaning equipment - removes oils from street sweepers and pressure washing systems

CAFETERIAS

- ❑ Commercial kitchen hood and exhaust systems - removes heavy grease buildup in school kitchen ventilation
- ❑ Fryer and cooking equipment exteriors - tackles baked-on grease and splatter on equipment housings
- ❑ Dishwasher areas and surrounding surfaces - cleans grease splatter and food residue buildup
- ❑ Kitchen floor degreasing - eliminates slippery grease buildup in high-traffic cooking and serving areas
- ❑ Food preparation equipment bases - removes sticky buildup on non-food contact surfaces
- ❑ Behind-equipment cleaning - addresses accumulated grease in hard-to-reach areas behind ovens and ranges
- ❑ Serving line equipment - cleans grease and food residues from steam tables and warming equipment exteriors
- ❑ Walk-in cooler/freezer floors - removes oils and food residues that create slip hazards
