

DEGREASER OPPORTUNITIES IN **FOOD GRADE**

CLR PRO MAX® INDUSTRIAL DEGREASER

Effectively penetrates and
dissolves heavy grease,
oil, and grime.

Available in 32oz, 1, 5, 55, and 275 Gallons

KITCHENS & RESTAURANT OPERATIONS

- ☐ Exhaust hood and vent cleaning - removes heavy grease buildup in commercial kitchen ventilation systems
- ☐ Fryer exterior cleaning - tackles baked-on grease and splatter on equipment housings
- ☐ Kitchen floor degreasing - eliminates slippery grease buildup in high-traffic cooking areas
- ☐ Grill and cooking equipment exteriors - removes carbonized grease from non-food contact surfaces
- ☐ Behind-equipment cleaning - addresses accumulated grease in hard-to-reach areas behind fryers and ovens
- ☐ Dishwasher exterior and surrounding areas - cleans grease splatter and food residue buildup
- ☐ Walk-in cooler/freezer floors - removes oils and food residues that create slip hazards
- ☐ Prep table bases and equipment stands - eliminates sticky buildup on non-food contact surfaces

ENTERTAINMENT & RECREATION VENUES

- ☐ Movie theater sticky floors - eliminates butter oil, spilled drinks, and candy residues that create tacky surfaces
- ☐ Concession stand equipment - cleans popcorn machine exteriors, nacho cheese dispensers, and fryer housings
- ☐ Stadium kitchen facilities - tackles large-volume cooking grease in sports venue concessions
- ☐ Bowling alley snack bar areas - removes pizza grease and food spills from equipment and floors
- ☐ Arcade game areas - cleans sticky residues from spilled food and drinks around gaming equipment
- ☐ Theme park food service - addresses high-volume grease buildup in outdoor cooking facilities

DEGREASING OPPORTUNITIES IN **FOOD GRADE**

HOTEL & HOSPITALITY OPERATIONS

- ❑ Banquet kitchen equipment - cleans large-scale cooking equipment exteriors after events
- ❑ Room service cart maintenance - removes food spills and grease from transport equipment
- ❑ Employee cafeteria areas - tackles grease buildup in staff dining facilities
- ❑ Pool deck concession areas - addresses cooking oil spills and food grease around snack bars
- ❑ Conference center kitchen facilities - cleans catering equipment and preparation area surfaces
- ❑ Laundry room maintenance - removes oils from equipment that may transfer from linens

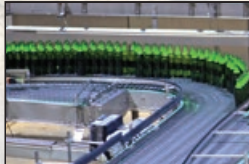

WAREHOUSE & LOADING AREAS

- ❑ Loading dock maintenance - addresses truck hydraulic fluid leaks and tracked contaminants
- ❑ Forklift and material handling equipment - cleans engines, hydraulics, and undercarriages
- ❑ Warehouse floor cleaning - removes oils from high-traffic vehicle areas
- ❑ Dock plate and equipment cleaning - cleans safe, non-slip surfaces
- ❑ Storage rack cleaning - removes dust and oils from racking systems

WASTE MANAGEMENT & EXTERIOR AREAS

- ❑ Dumpster pad cleaning - eliminates grease buildup around waste collection areas
- ❑ Grease trap maintenance - cleans external components and surrounding areas
- ❑ Drain and gutter cleaning - removes buildup that can attract pests
- ❑ Exterior equipment cleaning - cleans compressors, generators, and utility equipment
- ❑ Vehicle wash bay maintenance - handles automotive fluids and cleaning residues

PRODUCTION FLOOR & EQUIPMENT AREAS

- ❑ Conveyor systems and belt cleaning - removes lubricant buildup from non-food contact surfaces
- ❑ Packaging machinery exteriors - eliminates grease and oils from equipment housings
- ❑ Motor housings and drive components - cleans accumulated oils without equipment damage
- ❑ Production floor degreasing - tackles spills and tracked oils in high-traffic areas
- ❑ Overhead structural cleaning - removes airborne grease deposits from beams and supports
- ❑ Equipment pedestals and mounting bases - addresses oil leaks and environmental buildup
