

DEGREASER OPPORTUNITIES IN

GOVERNMENT

CLR PRO MAX® INDUSTRIAL DEGREASER

Effectively penetrates and
dissolves heavy grease,
oil, and grime.

Available in 32oz, 1, 5, 55, and 275 Gallons

PUBLIC TRANSPORTATION

- ❑ Bus engine compartment cleaning - removes oil buildup and road grime from diesel engines
- ❑ Transit vehicle maintenance bay floors - tackles hydraulic fluid spills and tracked grease
- ❑ Rail car undercarriage cleaning - addresses accumulated oils and environmental contaminants
- ❑ Subway ventilation system maintenance - removes grease and debris from tunnel air systems
- ❑ Fleet maintenance equipment - cleans hydraulic lifts, air compressors, and garage tools
- ❑ Loading dock and platform maintenance - eliminates oil drips from service vehicles
- ❑ Bus wash bay maintenance - handles soap residue and automotive fluid buildup

HOSPITALS

- ❑ Kitchen and cafeteria hood systems - tackles built-up cooking grease in healthcare food service areas
- ❑ Automated door mechanisms - removes grime and lubricant buildup in high-traffic entryways
- ❑ Elevator shaft and mechanical components - removes accumulated grease and debris from guide rails
- ❑ Loading dock and waste management areas - tackles spills and environmental oils in high-traffic zones
- ❑ Parking garage floor maintenance - addresses automotive fluid leaks and tracked-in contaminants
- ❑ Mechanical room equipment cleaning - removes grease and oils from pumps, compressors, and non-medical equipment

DEGREASING OPPORTUNITIES IN GOVERNMENT

FACILITIES MAINTENANCE

- ☐ Public restroom cleaning - removes soap scum, body oils, and tracked-in grease from floors and surfaces
- ☐ Government building kitchen maintenance - tackles cooking grease and oil buildup in employee break rooms
- ☐ Floor scrubber solution - creates effective cleaning systems for removing embedded oils and grime
- ☐ Parts washer maintenance - cleans automotive and equipment parts in municipal maintenance shops
- ☐ Custodial equipment cleaning - removes buildup from floor machines, buffers, and cleaning tools
- ☐ Break room and cafeteria cleaning - addresses food spills and cooking oil residues
- ☐ Entryway and lobby maintenance - eliminates tracked-in oils and environmental contaminants
- ☐ Maintenance closet organization - cleans oil-stained tools and equipment storage areas

UNIVERSITIES & COLLEGES

- ☐ Dining hall kitchen equipment exteriors - removes cooking grease from fryers, grills, and ovens
- ☐ Campus maintenance vehicle cleaning - tackles groundskeeping equipment oils and hydraulic fluids
- ☐ Dormitory kitchen facilities - cleans grease buildup in residential cooking areas
- ☐ Campus food truck areas - eliminates grease spills and cooking oil residues
- ☐ Mechanical room equipment - cleans HVAC components, pumps, and utility systems
- ☐ Stadium concession areas - tackles large-volume cooking grease from sporting events

WASTEWATER TREATMENT

- ☐ Pump station maintenance - removes oils and grease from mechanical equipment
- ☐ Blower and aeration equipment - cleans accumulated oils from air handling systems
- ☐ Maintenance shop floors - tackles hydraulic fluid spills and equipment oils
- ☐ Vehicle and equipment washing - removes oils from service trucks and maintenance equipment
- ☐ Pipe and valve exterior cleaning - addresses environmental oils and chemical buildup
- ☐ Control building maintenance - cleans non-process equipment surfaces
- ☐ Screening equipment maintenance - removes accumulated oils and debris from mechanical components
