PERFORMANCE PLUS MANUAL SOAP DISPENSERS

The Performance Plus Manual Soap Dispensers are made from durable plastic with a large view window and easy to slide window card. These dispensers utilize the 1000 mL refill bags, and have a standard output capability to dispense foam or liquid. Upper dispensing valve doesn't leak and means fewer pushes are needed, which saves product. The keyed locking option is included. Manual dispensers contain no metal parts, so they can be mounted in shower rooms and other high humidity areas. The glossy push pad helps eliminate soil buildup while the glossy accent trim enhances its appearance.
