

# JUMBO ROLL BATH TISSUE

Nova® Jumbo Roll Bath Tissue is a cost effective, low maintenance, and space saving solution for any high traffic restroom, perfect for Hotels, Schools, Restaurants, or any Business hoping to step up their away-from-home guest experience.

- ✓ **Cost-effective:** Jumbo rolls last longer than regular rolls, requiring fewer replacements. This can lead to significant savings on toilet paper costs over time.
- ✓ **Less maintenance:** With fewer roll changes, there's less work for janitorial staff or whoever is responsible for restocking restrooms. This frees up time for other tasks.
- ✓ **Space-saving:** Even though each roll is larger, jumbo rolls can take up less space than a comparable number of regular rolls. This is because they don't have multiple cores.
- ✓ **Environmentally friendly:** Jumbo rolls use less packaging since there are fewer rolls to wrap.
