Sofidel 

DISSOLVE TECH®

is a disposable towel that not only dries hands like a conventional hand towel but also **dissolves** into tissue-quality material when flushed. This towel **helps reduce clogs**, cuts down on maintenance, and helps be more operationally efficient while **reducing costs**.

REDUCING TOILET CLOGS WILL IMPROVE CUSTOMER EXPERIENCE

Market research indicates that 2 **DISSOLVE TECH®** hand towels are sufficient to thoroughly dry hands. These towels **dry effectively**, similar to regular paper towels, in contrast to 3 traditional flushable towels which break down too quickly like toilet paper. Normal towels, on the other hand, can cause blockages.

All **Papernet powered by DISSOLVE TECH®** products blend premium performance with environmental responsibility, and are made with only **FSC™ certified** paper.

DISSOLVE TECH® ADVANTAGES

**DRIES LIKE
A PAPER
TOWEL**

**FLUSHES LIKE
TOILET PAPER**

**DOESN'T
CLOG**

A hand is shown hovering just above a white toilet bowl. Inside the bowl is a crumpled white towel with a subtle herringbone pattern. The background is a wall of light-colored square tiles. The overall scene suggests a bathroom setting where the towel is being demonstrated for its dissolvable properties.
