## DRY TECH

towels are perfect for the most difficult tasks thanks to their **perfect combination of absorbency and strength**. Thanks to an innovative production process, **DRY TECH** products offer high absorption capacity and resistance, compared to traditional paper. These characteristics ensure end users receive increased **softness and performance**.

### THROUGH-AIR-DRYING

**DRY TECH** is created using air to add comfort, softness, and absorption. Air flows through the fibers and creates air pockets, increasing the paper's bulk.

All **Papernet powered by DRY TECH** products blend premium performance with environmental responsibility, and are made with only **FSC™ certified** paper.
