## THE POWER OF CLEAN HANDS

**PERFORMANCE**  
**PLUS**

## The Right Products in the Right Place

Proper hand hygiene in any restaurant, deli, supermarket, food handling or food processing facility is vital to healthy food. Reduce the risk of illness and save costs while building a reputation for safety, quality and cleanliness with the Performance Plus Hand Hygiene Program.

### CLEAN HANDS FOR HEALTHIER FOOD

### DID YOU KNOW ...

The Centers for Disease Control and Prevention (CDC) estimates that roughly 1 in 6 Americans, or 48 million people, get sick from foodborne diseases each year. Of those, 128,000 are hospitalized and 3,000 die.

While the most recent economic costs vary by study, the overall burden is significant. The Government Accountability Office (GAO) estimated the annual cost to be \$75 billion, covering medical care, lost productivity, and premature deaths. The U.S. Department of Agriculture (USDA) also estimates that the economic burden of just 15 key foodborne pathogens is \$17.6 billion annually.

The majority of foodborne illness outbreaks in the U.S. continue to be associated with food prepared in restaurants. Studies from the CDC show that over the last several decades, more than half of all reported foodborne outbreaks have been linked to restaurants.

## High-Performing Wall Dispensers

Performance Plus dispensers along with NSF registered products help prevent foodborne illness and ensure compliance with FDA Food Code requirements.

- Ideal for food preparation, handling and processing
- Meet guidelines for use in USDA and US federally inspected food processing facilities
- Sturdy, reliable dispensers with color-coded labels are designed to enhance your HACCP program

### PRODUCT LABEL IDENTIFICATION

Dispenser Labels Supplemental 2" x 0.5" color-coded E2 and E3 category labels are available (no charge) for you to place on dispensers.

**E2** Hand Sanitizer/Cleaner  
(rinse with water)

**E3** Hand Sanitizer  
(no rinsing)

- Available in Manual Push or No Touch (automatic) options
- 1000 ml Refills - same refills fit both Manual & No Touch M-fit
- Upper dispensing feature means no leaks
- Many dispenser color choices!

## PORTABLE HAND HYGIENE STATIONS

Make it easy and convenient to help protect your guests from germs!

Floor and Counter Top Stands become Hand Hygiene Stations when you add a Touch Free dispenser. Ask your Rep for more information!

Counter Top Stand with Optional Header

Floor Stand with header included

## DID YOU KNOW ...

Performance Plus Foam hand cleaners use just .75 mL per handwash versus 1.5 mL for most liquid hand cleaners. This cuts your soap usage in half, saving money!

Our top dispensing technology lets you see the product being dispensed. Studies show this saves up to 20% on soap waste.

- Products for the kitchen, the counter, the dining area and restrooms.
- Sanitary sealed refills help prevent contamination and the spread of germs.
- Visible hand hygiene practices benefit the bottom line.

# NSF Registered Hand Cleaners

**FOAMING E2 HAND SOAP** is a premium foaming hand soap that cleans and sanitizes hands at the same time, leaving them feeling soft and fresh. Formulated with 0.13% Benzalkonium Chloride to eliminate 99.99% of common germs within 15 seconds.

PP7820F	FOAMING HAND SANITIZER (62% ALCOHOL)	CLEAR	NONE	1000 ML	6 / CS

## WHAT IS NSF CERTIFICATION?

Millions of people take the safety of their food, water and consumer products for granted on a daily basis. Why? Because of three letters: NSF. NSF certification is your key to making sure that the products you use meet strict standards for public health protection.

Choosing a product certified by NSF lets you know the company complies with strict standards and procedures imposed by NSF. From extensive product testing and material analyses to unannounced plant inspections, every aspect of a product's development is thoroughly evaluated before it can earn our certification.

Most importantly, NSF certification is not a one-time event, but involves regular on-site inspections of manufacturing facilities and regular re-testing of products to ensure that they continue to meet the same high standards required to maintain certification over time. If for any reason a product fails to meet one or more certification criteria, NSF will take enforcement actions to protect you, including product recall, public notification or de-certification.

Products that earn NSF certification are said to be "NSF certified" or "NSF listed" and display the applicable NSF certification mark to show that they have been tested by one of today's most respected independent product testing organizations.
