performance plus hand care

NEW!

Manual Dispensers

The Performance Plus Dispensing System is more than just a tool; it's a statement. The vibrant, full-color Performance Plus logo, meticulously UV laser-printed, not only withstands the rigors of daily use but also reinforces your commitment to quality and brand excellence. The top dispensing technology allows for eye-level viewing to help save on wasteful, extra product dispensing.

- Branded with full-color, vibrant Performance Plus logo
- UV laser printed logo is scratch resistant
- Save on inventory: No Touch M-Fit and Manual Dispensers use the same refills
- Top dispensing for eye-level view of product being dispensed
- Upper valve placement eliminates leaks
- Dispenses .75 mL of product
- Secured locking option

NEW!

No Touch Dispensers

This touch free, automatic dispenser minimizes the spread of germs in restrooms and other handwashing and sanitizing areas. Built in motion sensor and anti-glare protection prevents random dispensing. The top dispensing technology allows for eye-level viewing to help save on wasteful, extra product dispensing.

**Four C batteries are included for up to 30,000 dispenses.*

PP7804F	FOAMING E2 SANITIZING HAND SOAP	CLEAR	NONE	1000 ML	6 / CS

"One of the Five Keys to preventing foodborne disease is to keep clean by washing your hands before handling food and often during food preparation."

-World Health Organization

Performance Plus Foam hand cleaners use just .75 mL per handwash versus 1.5 mL for most liquid hand cleaners. This cuts your soap usage in half, saving money!

Our top dispensing technology lets you see the product being dispensed. Studies show this saves up to 20% on soap waste.

FOAMING HAIR & BODY SHAMPOO

is a refreshing, lightly Aloe scented product. Recommended for use in locker rooms, truck stops, nursing homes, and fitness clubs.

- Formulated with conditioner & Vitamin E

WHAT IS NSF CERTIFICATION?

Choosing a product certified by NSF lets you know the company complies with strict standards and procedures imposed by NSF. From extensive product testing and material analyses to unannounced plant inspections, every aspect of a product's development is thoroughly evaluated before it can earn our certification.

Most importantly, NSF certification is not a one-time event, but involves regular on-site inspections of manufacturing facilities and regular re-testing of products to ensure that they continue to meet the same high standards required to maintain certification over time. If for any reason a product fails to meet one or more certification criteria, NSF will take enforcement actions to protect you, including product recall, public notification or de-certification.

Products that earn NSF certification are said to be "NSF certified" or "NSF listed" and display the applicable NSF certification mark to show that they have been tested by one of today's most respected independent product testing organizations.
