## Benefits of Converting

\***Cost Effective** - SC Johnson Professional® skin care formulations provide a lower cost per milliliter of product.

\***Durable Dispenser Design** - SC Johnson Professional® dispensers are manufactured from durable plastic components & rigorously tested for high usage environments, providing assurance of quality & longevity.

\***Lifetime Dispenser Warranty** - SC Johnson Professional® dispensers are guaranteed against normal wear & tear, subject to correct installation, usage & dispenser care.  
Manual dispensers are warranted for their lifetime.

\***BioCote® Protected** - SC Johnson Professional dispenser® buttons are exclusively protected with BioCote® - A silver-based antimicrobial agent that is incorporated into plastic components at the time of manufacture & inhibits the growth of a broad spectrum of bacteria & molds. BioCote® will not wear out or rub off & is effective for the lifetime of the dispenser button.

\***Fixed Product Dose** - SC Johnson Professional® dispensers deliver the exact amount required, controlling usage & reducing waste.

\***Simple Cartridge Replacement** - SC Johnson Professional® dispensers are designed for exclusive use with SC Johnson Professional® skin care system products, enabling cartridges to be replaced in seconds, reducing maintenance time & costs.

\***No Wastage** - SC Johnson Professional® cartridges are air-tight & designed to collapse during use ensuring full evacuation of product with no wastage.

\***Hygienic, Airless Cartridges** - SC Johnson Professional® ultrasonically sealed cartridge and pump mechanisms prevent the ingress of air into the cartridge during use to help prevent product contamination, ensuring 'fresh' product is dispensed every time.

\***Replacement Parts Available** - In case of vandalism or accidental damage, replacement parts can be provided for SC Johnson Professional dispensers allowing for repairs without taking the dispenser off the wall.

\***Be Proactive** - Transitioning your customers to the SC Johnson Professional® cartridge and dispenser system now, before the Stoko Legacy product is phased out, will help ensure continuous product availability and prevent any potential fulfillment gaps.
