Secure the new hygiene standard

Restroom experience is important, and the world has never paid more attention to cleaning and hygiene than now. As the leading global brand in professional hygiene, Tork can help you navigate these new demands of hygiene and what it means for your business. We will help you future-proof your ways of working and find the right combination of solutions to secure the new hygiene standard.

Different industries, different challenges

Recreation and Retail

More people means more business – but also more challenges to **efficiently deliver a pleasant experience**, especially when facing unpredictable peaks and troughs in traffic.

Airports

The pressure on airports to provide a **smooth and pleasant passenger experience** is growing. Providing clean and readily accessible restrooms is essential to passenger satisfaction and demands solutions that help cleaning staff work more efficiently.

Offices

Providing **cleaning quality and a healthy workplace**, while at the same time ensuring efficient operations, is key to most office facility managers.

Higher Education

Campuses need to efficiently **deliver a positive student experience in a clean and healthy environment**. Restroom solutions need to promote and ensure good hand hygiene, be cost-efficient and sustainable.

Healthcare

Restrooms in healthcare facilities are **hard to consistently maintain at a high hygiene standard** due to irregularly fluctuating traffic. Wasting time on dispenser checks means less time for other cleaning. Multiple refill solutions are inefficient for cleaning staff.

Industry

Large manufacturing sites need to manage traffic flows during shift changes to prevent close proximity of workers. **Lack of hand towels during shift changes** can prevent good hygiene compliance (a new focus). Cleaning routes need to be efficient for cleaning staff.

HoReCa

The pandemic has taken an overwhelming toll on restaurants and hotels worldwide. The biggest current challenge for operators is **the increased expectations on cleanliness**. Operators need to design a safe restaurant, have intense room cleaning as a top priority and promote safety in messaging and placement of hygiene products.

...with Tork PeakServe

The Tork PeakServe® Continuous™ Hand Towel System offers the highest capacity on the market with up to 250% more towels.³ Together with one-at-a-time dispensing this means fewer runouts and many more people served between refills. And since people only touch the towels they use, you get a very hygienic hand drying solution that helps you secure the new hygiene standard. In addition, the easy-to-use and continuous system of Tork PeakServe lets you:

- Promote hygiene
- Free up staff time for actual cleaning
- Speed up restroom flow
- Save on storage space and reduce transportation environmental impact

Our latest innovation explained

Tork PeakServe towels are compressed by 50% to fit twice as many in less space. The bundles latch onto each other when loaded and towels are connected so they dispense without interruption. The result is a smooth, continuous towel flow and a dispenser that stays slim, yet has 30% more capacity than any other product on the market.⁴

Always having hand towels available helps improve hand hygiene compliance and makes things easier for both users and cleaning staff.

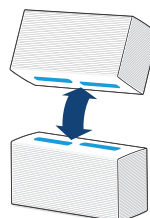

Tork PeakServe in detail:

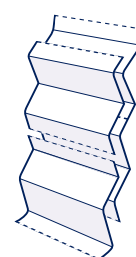

1

Towels are compressed by 50% giving up to 2,100 towels per dispenser

2

Continuous bundles latch together as bundles are loaded from underneath for fast refilling at any time

3

Bundles dispense without interruption one towel at a time

4. Compared to competitor's longest roll towel in North America

Continuous system is the new standard for high-capacity dispensing

Promote hygiene and get people in and out faster with fewer restroom delays

- **Prevent unexpected runouts with 250% more hand towels⁵** and lower consumption thanks to one-at-a-time dispensing
- **Users only touch the towels they use** which helps to improve hygiene
- **Faster dispensing serves users in 3 seconds**
 - quicker than jet air drying time
- **Taking a towel is always smooth and easy** with our patented continuous towel system
- **Use the same system everywhere** – Tork PeakServe offers dispensers for a variety of needs

More flexibility means more time to clean

- **Refill when it suits you** with up to 600 more people served between refills⁵
- **Carry twice as many towels** as they're compressed by 50%⁶
- **Cut refilling time in half⁵** with up to 2,100 towels per dispenser⁷
- **Increase efficiency** by using the same system across the entire facility

Improve your sustainability performance

Well-being

Making hygiene accessible to all users. Taking a towel is always smooth and easy with our continuous hand towel system. These hand towels are certified for short-term food contact.

Our Tork PeakServe dispensers and adapters are ADA compliant and the dispensers are also certified Easy-to-use for cleaners and users by the Swedish Rheumatism Association.

Circularity

Tork PeakServe hand towels are verified compostable and Forest Stewardship Council® (FSC®) certified — the only Forest Certification recognized by LEED. This guarantees that the product is made of fibers from responsibly managed forests and other controlled sources.

More from less

50% compressed towels enable you to store more towels on the cart, save storage space, increase the number of towels per truck and reduce transportation environmental impact.

Eliminate waste from stub rolls and over consumption with one-at-a-time dispensing.

Serve restrooms with different traffic flows, layouts and sizes with the same system

Tork PeakServe is available as standard and mini dispensers and as adapters for recessed towel cabinets, enabling you to meet the needs of your entire facility with the same system. And with the introduction of a new premium refill, you can now choose between two types of qualities to cater to different restroom experience requirements in different areas of your facility.

The latest additions to the Tork PeakServe family:

Tork PeakServe Mini

- The slimmest and smallest high-capacity dispenser on the market
- Fits everywhere

Tork PeakServe Recessed

- Improve without extensive renovation
- Easy and quick to install in less than 5 minutes
- Boost capacity of recessed cabinets by up to 40%⁸
- Compatible with many types of recessed cabinets

Tork PeakServe Premium Refill

- Delivers softness and enhanced performance⁹
- 20% more absorbent⁹
- Attractive, visual appearance with Tork leaf
