Let Clorox Help You Find A Smarter Way to a Healthier Clean™ This Cold & Flu Season

Every year, illnesses such as cold and flu take people out of work and school. Rhinovirus that causes half of common colds can live on surfaces for 4 – 25 hours and influenza A virus that causes the flu can live on surfaces for 2 hours to 2 weeks.* When people use shared spaces, viruses and bacteria can spread via direct contact, the air, or by touching surfaces. Help facilities be ready with easy to use and effective products from Clorox.
