

A Smarter Way to a Healthier Clean™

Product Solutions for Commercial Office Buildings

Help Protect Your Office Against Illness-Causing Germs

Every year a variety of illnesses spread in the community leading to lost productivity. We know that when people gather in shared spaces, viruses and bacteria can transfer through direct contact, air or by touching a contaminated surface.* Some illness-causing germs can live on surfaces for days or weeks.

PATHOGENS	WHAT ILLNESS IT CAUSES	SURVIVAL
Norovirus	Gastrointestinal illness/stomach flu	Days to weeks on surfaces†
Rhinovirus	Half of all common colds	4 - 25 hrs on surfaces†
Influenza A Virus	The flu	2 hrs - 2 wks on surfaces†
<i>Staphylococcus aureus</i> and MRSA	Skin (staph) infections	30 mins - 3 yrs on surfaces†

- ▶ Employers lose **\$411** per employee per day due to the flu virus¹
- ▶ Desktops have **400 times** more bacteria than a toilet bowl²
- ▶ **2-in-5** Americans would quit their job if their office consistently smelled bad or was consistently dirty³
- ▶ Even after being vaccinated, **81%** of people will be concerned about the cleaning and sanitizing of businesses⁴
- ▶ Restroom complaints rank **No. 1**⁵
- ▶ Cleaning professionals report that removing urine odors is their **No. 1** cleaning priority⁶

Cleaning & Disinfecting with Practical Solutions

Now more than ever, people want to feel confident that shared spaces are clean and safe. By using a well-known trusted brand, you can help them feel more at ease that the job has been done effectively.

- ▶ **Clorox is the #1 brand** used for disinfecting schools**
