

A Smarter Way to a Healthier Clean™

Product Solutions for K-12 Education

Simple Facts that Remain the Same

Every year a variety of illnesses spread in the community and take children and staff out of the classroom and away from learning. We know that when people gather in shared spaces, viruses and bacteria can transfer through direct contact, the air or by touching a contaminated surface.*

PATHOGENS	WHAT ILLNESS IS CAUSED	SURVIVAL
Norovirus	Gastrointestinal illness/stomach flu	Days to weeks on surfaces†
Rhinovirus	Half of all common colds	4 - 25 hrs on surfaces†
Influenza A Virus	The flu	2 hrs - 2 wks on surfaces†
Respiratory Syncytial Virus (RSV)	Respiratory illness, mostly children	5 - 7 hrs on surfaces†
<i>Staphylococcus aureus</i> and MRSA	Skin (staph) infections	30 mins - 3 yrs on surfaces†
Measles	Measles	Up to 2 hrs in air and on surfaces†

Cleaning & Disinfecting with Practical Solutions

Now more than ever, people want to feel confident that shared spaces are clean and safe. By using a well-known trusted brand, you can help them feel more at ease that the job has been done effectively.

► **Clorox is the #1 brand** used for disinfecting schools‡
