EOVOGEN® FEMININE HYGIENE DISPENSERS

Evogen dispensers make stocking and dispensing more convenient than ever before. And dual loading of both tampons and pads is more convenient for customers. The dispensers' modern, streamlined styling is attractive and easy to use. To load, staff just opens the door and slides in products — easy loading promotes consistent stocking. ADA-compliant push-button dispensing makes Evogen dispensers accessible to all women. Evogen dispensers are available in white and stainless steel.

Evogen® EV1 Pad/Tampon Dispenser

At-a-glance sensor alerts staff when dispenser is empty. Available in FREE vend or 25-cent vend models. Patent # 9,501,888 and 9,721,419.

Evogen® EV2 Pad/Tampon Dispenser

This compact dispenser is ideal for smaller restrooms. Available in FREE vend only. Patent Pending

 All Evogen® FREE vendors include a patented factory-programmed delay of 8-12 seconds to reset the push button. Push button will reset with a click sound. The reset feature will discourage abuse and over dispensing.

Temperature and humidity can affect the time delay setting.

- To adjust the time delay, a phillips screw driver is provided. A very slight adjustment to the time delay screw, clockwise or counter clockwise, will result in a 2 second change.
- To increase time delay: turn screw clockwise ever so slightly.
- To decrease time delay: turn screw counter clockwise ever so slightly.
- Do not tighten screw completely clockwise or the dispenser will not operate.
- Turning the time delay screw all the way counter clockwise will eliminate the delay completely. Do not remove screw.
