

Microfiber

Your Go-To for Cleaning Products

Microfiber

Did you know?

Microfiber towels contain more than 200,000 fibers per inch of fabric and can absorb more than seven times their weight in water, making them much more effective than traditional cleaning cloths.

Renowned for its high absorption properties and its ability to clean using only water, without chemicals, it is also praised as a washable, reusable cleaning cloth that is safe to use on any surface.

Microfiber mops also use 10 to 20 times less water than conventional mops, meaning businesses can use less water for cleaning.

DISP18

LAUNDRY INSTRUCTIONS

COMMERCIAL WASHING: HOT WATER METHOD

- Wash in hot water (160°F/71°C) for 25 minutes¹
- Use above chart to select appropriate capacity setting

COMMERCIAL WASHING: COLD WATER METHOD

- Wash in cold water
- Use above chart to select appropriate capacity setting

COMMERCIAL DRYING

- Dry cloths and mops on low heat (130°F/54°C) setting
- Store dry cloths and mops in clean storage containers.

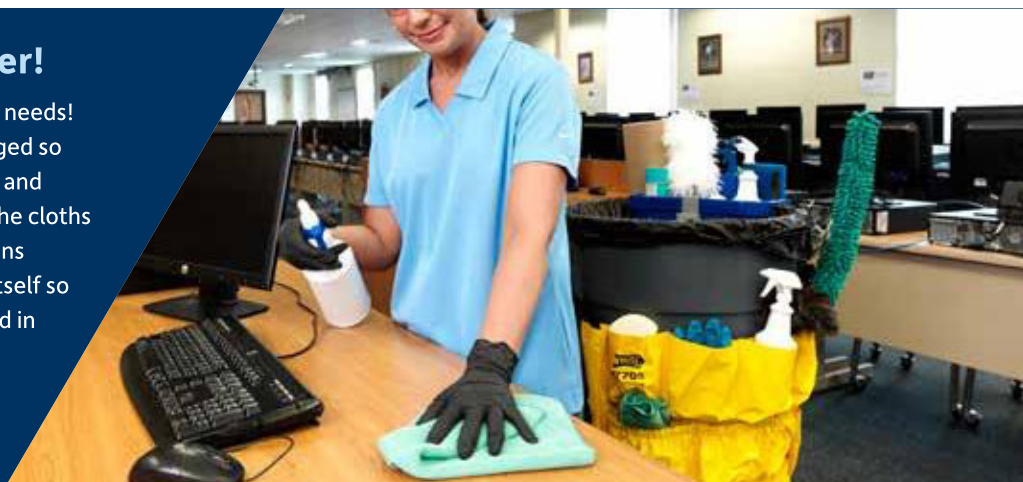

REQUIRED CARE

- Do not store microfiber in a washing machine overnight
- Do not use fabric softener in the wash cycle
- Do not use dryer sheets in the dry cycle
- Do not wash microfiber cloths or mops with other textiles

Dusting with Microfiber!

Use the cloth dry for all your dusting needs! Microfiber cloths are statically charged so they attract dirt, pet hairs, dust balls and microparticles like a magnet. Once the cloths attract dust and dirt it actually remains trapped in the grooves of the cloth itself so the particles are not just re-scattered in the air like with ordinary dusters.

- For use with all 18" Microfiber flat mops

LF228

ITEM	DESCRIPTION	SIZE	CS QTY
LF228	Gray	6 Gallon	1/cs

HOW TO USE MICROFIBER LAUNDRY

1. Clean the laundry machines daily, before the first use.

2. Separate microfiber cloths and mops from other textiles.

3. Wash microfiber cloths and mops in a laundry net to manage inventory.

4. Determine detergent and maximum load size using the chart below.*

WASHER SIZE	MAX VOLUME	DETERGENT LOAD**	18"/45CM MOPS PER LOAD
60 lb / 27.2 kg	71.8 gal / 272 L	1.5 oz / 44.4 mL	130
81.6 lb / 37 kg	97.8 gal / 370 L	2.0 oz / 59.2 mL	175
101.4 lb / 46 kg	121.3 gal / 459 L	2.5 oz / 73.9 mL	220
125 lb / 56.7 kg	150.6 gal / 570 L	3.1 oz / 91.7 mL	270
141.4 lb / 64.3 kg	169.6 gal / 642 L	3.5 oz / 103.5 mL	305
174.8 lb / 79.3 kg	201 gal / 761 L	4.2 oz. 124.2 mL	375

*Machine settings can be established by chemical provider.

**Represents 1/2 the average manufacturer's detergent recommendation. Using full amount of detergent can result in hazy floors.

Microfiber Products

Premium Weight Microfiber Cloths

Microfiber cloths are a great choice for general cleaning and dusting.

- Excellent cleaning for surfaces like counter tops, porcelain, chrome, glass and wood
- Available in multiple colors for color coding by area or application
- Can be extensively laundered

WDGCOM

Less Water for Mopping!

Traditionally, an average worker uses up to 21 gallons of floorcleaning solution for [traditional] string mopping during one shift. With microfiber, the solution can be reduced to as low as two gallons. Because less water is used, there is less liquid on the floor, allowing it to dry faster, which helps reduce the potential for slip-and-fall accidents.

HOW TO USE 8-SIDED FOLDS with Microfiber Cloths

NOTES: Color-coding can prevent cross-contamination, so assign each color of cloth to a specific area and task.

Do not over-saturate cloths. Follow all established safety procedures. Don all appropriate Personal Protective Equipment (PPE).

1. Begin with an open, clean microfiber cloth.

5. Open microfiber cloth once to change sides.

2. Fold your microfiber cloth in half.

6. Refold to expose two fresh cleaning surfaces. Track the side used for each surface while cleaning.

3. Fold microfiber cloth in quarters, resulting in a square-shaped pad with four layers of cloth.

7. Open the cloth fully once four surfaces have been used and expose four fresh surfaces.

4. Clean surfaces with the two exposed sides of the microfiber cloth. Track the side used for each surface while cleaning.

8. Repeat steps 2 through 7 to use all eight sides.
