How to Use Scott 24 Hour Sanitizing Wipes

The chart below outlines the contact time necessary to effectively kill various bacteria, viruses and fungi:

<p>Contact Sanitization (non-food)</p> <p>15 seconds</p> <p>Wipe and let stand for 15 seconds on surface</p> <ul style="list-style-type: none"> • <i>Enterobacter aerogenes</i> • <i>Staphylococcus aureus</i> • <i>Community-associated methicillin-resistant Staphylococcus aureus</i> 	<p>Immediate Surface Disinfection</p> <p>6 minutes</p> <p>Wipe and let stand for 6 minutes on surface</p> <ul style="list-style-type: none"> • Coronavirus¹ • Influenza A virus (H1N1) • Respiratory syncytial virus (RSV) • <i>Escherichia coli</i> 0157:H7 • <i>Kiebsiella pneumoniae</i> • <i>Salmonella enterica</i> • <i>Staphylococcus aureus</i> • <i>Streptococcus pyogenes</i> 	<p>Residual Surface Sanitization²</p> <p>5 minutes</p> <p>Wipe and let stand for 5 minutes on surface</p> <ul style="list-style-type: none"> • <i>Enterobacter aerogenes</i> • <i>Staphylococcus aureus</i> • <i>Community-associated methicillin-resistant Staphylococcus aureus</i>
--	---	--

* Non-Food Contact Surfaces
¹ Previously tested against human coronavirus, ATCC VR-74 Strain 229E **Not yet tested for efficacy against SARS-CoV-2
² **Residual Self-Sanitizer:** To sanitize for 24 hours against *Staphylococcus aureus*, *Enterobacter aerogenes*, and *Community-Associated Methicillin-Resistant Staphylococcus Aureus (CA-MRSA)* on hard, non-porous surfaces. Wipe surface and let stand for 5 minutes. No rinsing required.
 • This product can be removed with soap and water. Repeat residual self-sanitizing directions to maintain 24 hour sanitization.
 • Use of this product on a floor or flooring surface is not recommended and may cause a slipping hazard.
 • This product contains Hydrogen Peroxide, which may cause temporary skin whitening after prolonged contact. Wash hands with soap and water.
 • This product will not harm surfaces including acrylic, ceramic, painted surfaces, stainless steel and vinyl.
