

soaps, sanitizers, shampoos & dispensers  
**performance plus hand care**

**HAND SOAP DISPENSERS**

**MANUAL SOAP DISPENSERS**

Made from durable plastic, with a large view window, and easy to slide window card. The upper dispensing valve will not leak, ensuring the least amount of needed pushes, which saves product. Manual dispensers contain no metal parts, so they can be mounted in shower rooms and other high humidity areas.

- Available in four body colors/glossy accent trims
- Keyed locking option is included
- A glossy push pad helps eliminate soil buildup
- Utilizes the 1000 mL refill bags
- Has a standard output capability to dispense foam or liquid

No-Touch M-Fit Dispensers  
 Uses (4) C Batteries

**NO-TOUCH M-FIT SOAP DISPENSERS**

Made from durable plastic, with a large view window, and easy to slide window card. No-Touch M-Fit Dispensers use the same refills as the manual dispensers, and have a powerful motor for quick dispensing and foaming.

- Keyed locking option is included
- Utilizes the 1000 mL refill bags
- Has a standard output capability to dispense foam or liquid, regulated 0.75 mL per output
- The water-drip indicator lights up green when activated, and red when batteries are low
- Sleep mode is activated after 30 minutes of non-use, to extend battery life
- No tools are necessary to change batteries
- Powered by 4 C-cell batteries each set will dispense approximately 35K outputs

PP7800F	FOAMING LUXURY HAND SOAP	PINK	TROPICAL	1000 ML	6 / CS

"One of the Five Keys to preventing foodborne disease is to keep clean by washing your hands before handling food and often during food preparation."

-World Health Organization

Performance Plus Foam hand cleaners use just .75 mL per handwash versus 1.5 mL for most liquid hand cleaners. This cuts your soap usage in half, saving money!

Our top dispensing technology lets you see the product being dispensed. Studies show this saves up to 20% on soap waste.

**FOAMING E2 HAND SOAP** is a premium foaming hand soap that cleans and sanitizes hands at the same time, leaving them feeling soft and fresh. Formulated with 0.13% Benzalkonium Chloride to eliminate 99.99% of common germs within 15 seconds.

- Ideal for use in all food related facilities
- Must be rinsed off after use
- Accepted for use in federally inspected meat and poultry plants
- NSF Registered Product - Listed E2

## WHAT IS NSF CERTIFICATION?

Choosing a product certified by NSF lets you know the company complies with strict standards and procedures imposed by NSF. From extensive product testing and material analyses to unannounced plant inspections, every aspect of a product's development is thoroughly evaluated before it can earn our certification.

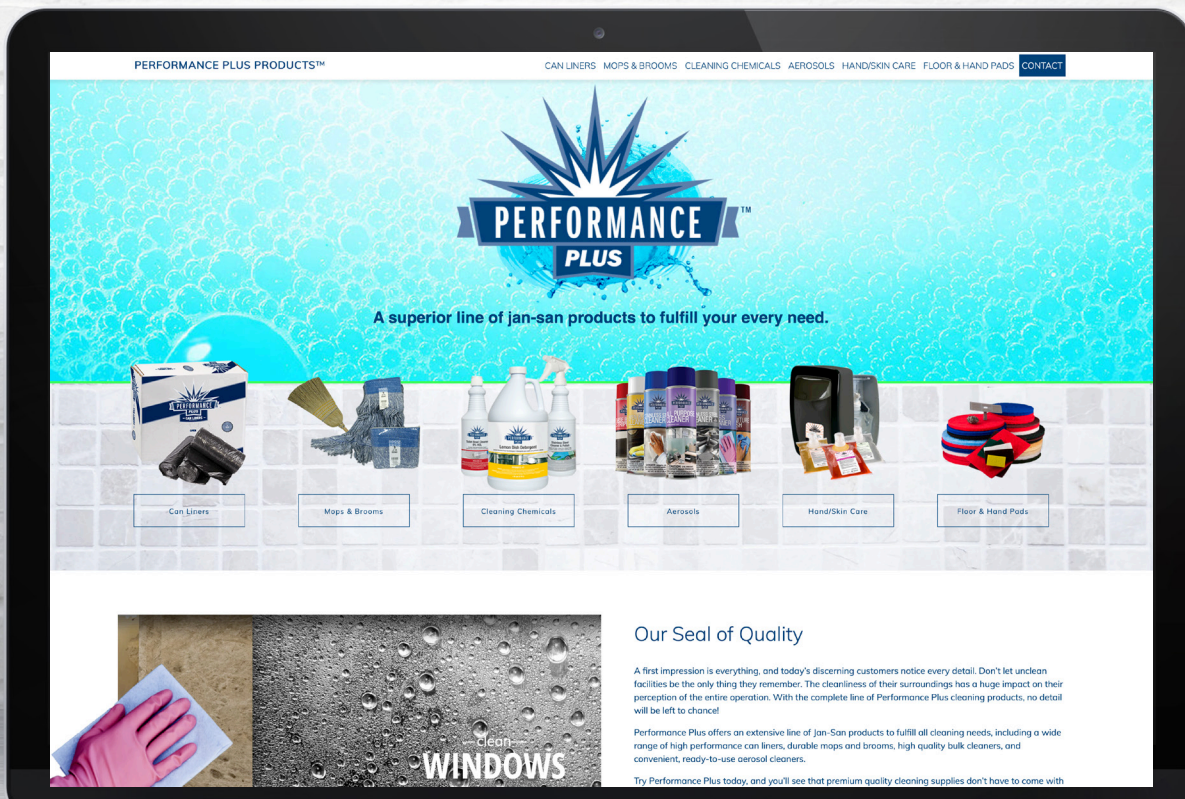

Most importantly, NSF certification is not a one-time event, but involves regular on-site inspections of manufacturing facilities and regular re-testing of products to ensure that they continue to meet the same high standards required to maintain certification over time. If for any reason a product fails to meet one or more certification criteria, NSF will take enforcement actions to protect you, including product recall, public notification or de-certification.

Products that earn NSF certification are said to be "NSF certified" or "NSF listed" and display the applicable NSF certification mark to show that they have been tested by one of today's most respected independent product testing organizations.
