<sup>1</sup>Room size defined as 10ft x 10ft x 8ft or 800 cubic ft. **To kill bacteria<sup>o</sup>** after spraying, leave room for 4 minutes. **To kill viruses<sup>†</sup>** after spraying, leave room for 12 minutes. After contact time, resume normal room ventilation including opening doors, windows and uncovering returns and vents. Not for use around food. Rinse food contact surfaces with potable water after use. Spray may leave hard floors slippery. Do not concentrate spray over hard floors. For spaces 801 to 1,000 cubic ft., repeat directions for use by spraying in the center of each 800 cubic ft. section, not to exceed 5 sprays per day. Product is for application to air only with no residual effect after room is reopened. This product is intended to supplement public health guidelines for indoor air including maintenance and ventilation.
