

WHY DRY TECH IS UNIQUE

DRY TECH is created using air. To add comfort, softness and absorption, air flows through the fibers and creates air pockets, increasing the paper's bulk. The process is called Through-Air Drying.

DRY TECH ADVANTAGES

- 1 INCREASED WET AND DRY STRENGTH**
ensuring perfect dispensing and maximum performance.
- 2 Increased softness and absorption**
SAVING TIME AND ADDING COMFORT.
- 3 REDUCED WASTE**
through increased performance of each towel.
- 4 REDUCES PAPER CONSUMPTION**
and therefore cost.

HIGH PERFORMANCE.
LOW WASTE.

DRY TECH IS BETTER

Dry Tech is bulkier and softer thanks to its internal air pockets that guarantee extremely high wet and dry strength and top reliability.

Absorbs faster and saves time.

DRY TECH SAVES MONEY

Dry Tech substantially reduces excess use of paper, refilling operations and waste. By absorbing greater quantities of liquids, it greatly **reduces paper consumption and supply costs.**
