SOLARIS PAPER®

Welcome to Solaris Paper®. We're proud to produce paper towel and tissue products that use high-quality, rapidly renewable fiber (RRF) and advanced dispensing systems that are as stylish as they are efficient.

We know that no matter who you serve or how many facilities you stock, you need a reliable

paper product partner. That's why we prioritize the basics. We don't complicate things with extra steps or unnecessary technology. By bringing together smart, sustainable products and superior service, Solaris Paper AFH delivers essential products using extraordinary solutions.

Safety

When it comes to reducing the spread of germs, we all know handwashing is essential. But proper hand drying is the critical last step. Single-use paper towels are the most effective way to remove lingering viruses and bacteria.¹ Choosing Solaris Paper hand towels and no-touch LoCor dispensers instead of hand air dryers can help improve the safety and hygiene of your facility.

The World Health Organization's global guidelines on hand washing recommend single-use paper towels over other hand drying methods.⁴

By using friction to dislodge viruses and bacteria, paper towels leave hands cleaner than air dryers.³

Petri dishes exposed to 30 seconds under an air dryer had up to 254 times more bacterial colonies than dishes not directly exposed.⁵

Single-use hand towels disperse the fewest microbes of all hand drying methods, while jet air dryers disperse the greatest amount.¹

Even if an air dryer contains a HEPA filter, the airflow causes microbes on hands and bathroom surfaces to be dispersed and recirculated, pushing the highest concentrations a distance of 2 to 4 feet.²

In locations where health and safety are most essential—like hospitals and clinics—doctors recommend using single-use paper towels instead of air dryers.³

Sustainability

Solaris Paper is committed to sustainability. At every step of the supply chain—from the content of our paper to the design of our dispensers—our products and processes can help you minimize lifecycle impact.

Rapidly Renewable

Solaris Paper uses Rapidly Renewable Fiber (RRF) from eucalyptus and acacia trees, which can be harvested every six to eight years—less than half as long as traditional-growth trees.

Responsible Sourcing

RRF is grown on responsibly managed and sustainable plantations, like a traditional crop, for quick replenishment and improved supply stability.

PEFC™ Certification

Our recognition through the Programme for Endorsement of Forest Certification (PEFC™) identifies our goods as coming from sustainably managed forests. The PEFC's Chain of Custody certification is one of the most comprehensive and rigorous methods available for tracking wood products from forest to final production. ****

LEED® Compliance

The renewable fiber in Solaris Paper meets USGBC LEED® standards requirements, helping facilities reach their sustainability goals.

Zero Deforestation

Through work with leading NGOs and at the United Nations Climate Summit, our strategic supply partner, Asia Pulp and Paper (APP), is committed to ending natural forest clearance throughout its supply chain. ***

* The RRF (rapidly renewable fiber) logo is a promotional mark of Solaris Paper, Inc. and does not denote any independent or professional environmental certification(s) or certifying organization. Solaris Paper AFH towel and tissue products contain a 20% - 80% virgin rapidly renewable base fiber.

** Solaris Paper towel and tissue products are derived from rapidly renewable resources / fiber and meet the requirements of the U.S. Green Building Council (USGBC) LEED standards per compliance pathways defined in EQc7 (Environmental Quality, credit 7) of LEED EBOM (v4) and IEQc3.3 (Indoor Environmental Quality, credit 3.3) of LEED EBOM (v3). The USGBC logo is a registered trademark of the United States Green Building Council.

**** Programme for Endorsement of Forest Certification (PEFC™) is an international non-governmental organization (NGO) and the world's largest forest certification system. PEFC works by endorsing national forest certification systems, which are developed through multi-stakeholder processes and tailored to local priorities and conditions. The PEFC's Chain of Custody (CoC) certification is one of the most comprehensive and rigorous methods available for tracking wood products from forest to final production. The PEFC label and logo are registered trademarks that identify goods from sustainably managed forests. For more information, please visit <https://www.pefc.org/>

LoCor® Advanced Dispensing Systems

SolarisPaper.com/afh

LoCor® paper products and dispensers are designed to meet all your needs in one sleek, smart package. The dispensers' modern design adds polish to any facility's aesthetics. And their slim, low-profile cores reduce waste and change-outs—for greater efficiency and sustainability, all the way around.

- Smaller core tissue allows for 100% more product on each roll.²
- High-capacity design reduces the time and labor required for change-outs.
- Paper made from RRF earns LEED credits.³
- Meets ADA guidelines when properly installed.
- Touch-free dispensing reduces cross-contamination.
- Patented electronics provide unmatched performance.
- Electronic and manual dispensing.
- Extended battery life.
- Quick, smooth paper delivery.
- Sleek, contemporary dispenser design.
- Quality construction for superior durability.
- Bobrick, Bradley and residential-style dispensers can be converted to accommodate LoCor® products.

More on the core.

To simplify your life, we started with the core. The smaller core on our LoCor® tissue products doubles the capacity of each roll, as compared to standard tissue rolls. Our innovative adapters also let you use LoCor® bath tissue with most commercial Bobrick, ASI and Bradley dispensers, as well as with residential-type fixtures. No matter what you need, LoCor® checks every box and fits right in.

50% REDUCTION

in core waste with LoCor® HWRT

LoCor® Towels vs
Universal HWRT

72% REDUCTION

in packaging waste

LoCor® Tissue vs
Universal Bath Tissue
(80 Roll / 500 Sheet Count)

High Capacity

LoCor® dispensers and paper products use an innovative, reduced core to maximize product and reduce packaging and product waste.

High Style

The sleek, durable design of LoCor® dispensers enhances the image of high-traffic washrooms. To fit into any décor, dispensers are available in three finish options.

High Efficiency

Reliable electronic dispensing, durable construction and a high-capacity design prevent costly repairs and time-consuming change-outs.

Livi® Ultra Premium

Now you can experience premium retail quality with an at-home feel. Our Livi® Ultra Premium line has plush sheet thickness so that even the most discerning customer won't believe they are commercial products. Plus, they're conveniently bundled as 6-roll and 4-box packages for easy storage and distribution. And everything carries the Programme for the Endorsement of Forest Certification (PEFC), showing the products are made from sustainably managed forests and controlled sources.

A better process, from start to finish

It's easy to say Solaris Paper is changing the industry. It's a statement we fully believe. But our innovative process also proves it—at every step, every day.

A BETTER APPROACH

Vertically Integrated from Plantation to Finished Product

1. Forestry R&D

2. Responsibly Managed Plantations

3. Pulp Mill

4. Paper Mill

5. Converting in U.S.A.

6. North America Distribution

Better Paper

Our use of Rapidly Renewable Fiber (RRF) and PEFC-certified base paper helps us produce sustainable and premium products that exceed customer expectations.

Better Products

Towel and tissue paper aren't our only innovations. We also offer a full line of smart, sleek towel and tissue dispensing systems. Our LoCor® Advanced Dispensing Systems combine high style with exceptionally high-capacity designs.

Better for Business

At Solaris Paper, our approach to business is a refreshing change. From our service to our vertically integrated business model—everything we do is designed to make your life easier. Day after day, we strive to be an ally, partner and trusted resource.

Essential Products, Extraordinary Solutions.
