ECOLOGO®

www.ul.com/el

UL Environment's ECOLOGO® Program helps build and strengthen trust in sustainable products. Certification to one of UL's rigorous, multi-attribute, lifecycle-based standards indicates that a product has undergone third-party auditing and verification to stringent, science-based performance criteria, making it a more sustainable choice.

Shown as: in product charts

- UL certifies commercial and household toilet and facial tissue, napkins, and hand and kitchen towel products under its UL 175 Sanitary Paper Standards for an overall reduced environmental impact.

Tork Microfibers

Microfibers are very fine so that they have a lot of surface area, which increases the absorbency. Microfiber cloths have pockets, which easily pick up dirt and dust and are also fine enough to pick up microbes.
